MEMORANDUM FOR: D/DCI/IC

SUBJECT: Selecting Intelligence Items for the
DCI and the Vice President

1. In view of the Vice President's expressed interest in receiving a daily intelligence briefing, [] has asked that the IC Staff assist [] by selecting for his possible use good finished intelligence prepared outside of CIA. The NIOs have also been asked to do the same. Recommend that you bring this up at your staff meeting and ask PRD to take this on, and to forward such items to [] through you.

2. We have provided [] with a copy of the DCI's FY 75 Objectives for Peterson to give to the Vice President and will add him to distribution of other IC Staff-prepared DCI guidance and planning documents.

3. [] observed that Mr. Colby also wanted to see good finished intelligence prepared by other production offices and she had asked the NIOs and the IC Staff to select items for him on a continuing basis. But she said scarcely anything had resulted from her request.

4. It seems to me that the kind of service you were providing to Dr. Schlesinger during your early days as Chief, PRD, is what Mr. Colby is looking for. You may want to reinstitute this, by forwarding on to the DCI more of the critiques which PRD provides to you on a regular basis.
